The following is an examiner's statement of reasons for allowance: The closest prior art of record is Kodera et al. While this reference discloses polyacetal/polyethylene vinylacetate blends with the addition of fatty acid ester of pentaerythritol, the reference clearly teaches away from compositions where the polyacetal is present in amounts exceeding 40 parts per 100 parts of polyethylene vinyl acetate copolymer. Further, the only ester of pentaerythritol clearly taught is the monostearate in contrast to the diesters required by the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward J. Cain whose telephone number is (571) 272-1118. The examiner can normally be reached on M-F from 10:00 to 6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan, can be reached on 571 272-1119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
